| Ablene Police Department        | approximately 30   | approximately 6                                    | yes  | These occasions primarily consist of small amounts of personal use marijuana. | no  |                  | yes  | I am aware of one recent case where an individual was arrested for possession THC oil which was obtained from Colorado. | The marijuana we are seeing from Colorado is much more potent than marijuana we were seizing prior to January 2014. This type of Marijuana is typically in large "bud" form and commonly labeled for commercial sale. | Colorado's legalization of marijuana has made it much easier for individuals in Abilene to obtain high-grade marijuana. Nearly all of the intelligence we are receiving indicates that individuals are traveling to Colorado to obtain marijuana and bringing it back to our community for sale. |  |  |  |  |  |
| Allen County Sheriff's Office   | one confirmed  | one confirmed                                      | no   |   | no  |                  | no   |   | the subjected stated it was from Colorado and the packaging showed that it was purchased in Colorado  | I believe that there is a large quantity coming into our jurisdiction but it is hard to prove that it was obtained in Colorado and transported back to Kansas.   | I think since the legalization of Marijuana in Colorado I have seen the increase of Marijuana Cases in Kansas and believe that it is a direct result of their law.   |  |  |  |  |
| Altamont Police Department      | 1  | 1  | no   |   | no  |                  | no   |   | Subject admitted he was from Colorado and used marijuana as a source to help with his back pain.  | I believe we have more Colorado marijuana in the State, but being able to trace it back to Colorado is an issue, but seeing more and more people wanting legalization based on Colorado.   | not much from the rural southeast Kansas area  |  |  |  |  |
| Americus Police Department      | 0  | 0  | no   |   | no  |                  | no   |   | None  | None   | None   |  |  |  |  |

|-------------------------------------|--|------------------------|-----------|------------------|---------|--|----------------|--|---|--|---|--|--|--|
| Augusta Department of Public Safety | There have been 102 cases with "marijuana" submitted into evidence since January 1st, 2014, ranging from bags with residue to live marijuana plants. In three (3) of those cases, the submitted marijuana was particularly described as a 'bud.' This would be consistent with a higher grade marijuana than we have historically seized. I would estimate approximately 10-12 cases where I noted the marijuana was obviously of this quality. There are of course a high percentage of cases | 0                      | no        |                  | no      |  |                | There are two cases in which 'wax' was submitted as evidence since January of 2014. There is no direct evidence as to this being from Colorado, although I find no seizures of 'wax' prior to this time frame. | I am aware of one local case where the marijuana is known with certainty to have come from a dispensary in Colorado, but officers commonly note that the overall quality of marijuana seized has increased markedly from that we have seen in past years. There was a period time early last summer when almost every case appeared to be of this quality. The timing of the quality change correlates to the 'legalization' of marijuana in Colorado for recreational use. | Although the majority of our community continues to support our drug enforcement efforts, the drug user community has embraced Colorado's legalization efforts and persons arrested or investigated for violations commonly mention this fact. | Qualitative analysis by the Kansas Bureau of Investigation laboratory might assist local and state law enforcement officials in identifying the derivation of marijuana. Intelligence information indicates that Colorado marijuana is commonly brought in by vehicle and through the mail.                           | Colorado is close, has no border crossings to get through, and has both a growing legitimate marijuana trade and a substantial black market that has only gotten larger since it became legal there. The creative, colorful packaging and numerous different oils, liquids, edibles, and waxes are almost exclusively from Colorado or from other "legal" marijuana U.S. areas. I drove to Denver and back for a funeral in December of 2015. I only saw three deputy patrols along I-70 from Hays to Limon. The Kansas Highway Patrol is understaffed (100+ short?) and I did not see a single trooper on I-70 until I got to the Fort Riley area. I recall thinking that a load of dope would be very easy to bring into the state from Colorado as there seems to be little interdiction on even a major highway like I-70. | One concern is the many creative/attractive ways that marijuana is being consumed that appeal to our young. Instead of a stinky hand rolled cigarette they now can simply "smoke" cherry flavored water vapor, eat a gummy worm, or a bowl of cereal. These are a direct import from the Colorado marijuana trade. | Colorado and other areas are passing laws legalizing marijuana use and this reflects an overall more relaxed view of its possession and use by the public. Legalization is happening in more and more places across the United States. Local laws are relaxing. Cities like Wichita are talking of "decriminalizing" its use. The legalization of marijuana in some form is probably coming to Kansas eventually. Kansas legislators and the Attorney General should become very educated on the many huge problems that Colorado is dealing with and trying to fix. (Everything from transient populations to burglaries/robberies and enforcement/compliance) Hopefully if/when Kansas adopts new laws on this we can skip a lot of the problems by learning from others mistakes. |
| Baldwin City Police Dept.           | 0  | 0                      | no        |                  | no      |  | No             |  |   | No effect that we can determine  |   |  |  |  |
| Barber County Sheriff's Office      | 0  | 0                      | no        |                  | no      |  | no             |  |   |  |   |  |  |  |
| Barton County Sheriff's Office      | 22   | 22                     | no        |                  | yes     | We found large quantities in a search warrant. Candies and lollypops.  | yes            | In the same search warrant as question four we found oils.   | Our detectives noted in investigation the quality and appearance of the marijuana from Colorado to be superior than the Mexican marijuana.  | This has affected us a great deal with the availability of the drug, it is common for citizens to visit and smuggle Colorado pot back to our County.   |   |  |  |  |
| Baxter Springs Police Department    | 0  | 0                      | no        |                  | no      |  | no             |  |   | Legalization of marijuana in Colorado has shown no known effect within our jurisdiction since 2014   |   |  |  |  |
| Bel Aire Police Department          | 1  | 0                      | no        |                  | no      |  | No             |  | We have made more arrests, but have no definitive proof the marijuana originated from Colorado  | Minimal  | The source of procurement is not a necessary element for a possession case so the questions may not be asked by investigating officers on simple possession cases.  |  |  |  |
| Belle Plaine Police Department      | 0  | 0                      | no        |                  | no      |  | no             |  |   | Biggest effect appears to be the misinformation that is spread among the youth of Kansas.  |   |  |  |  |
| Beloit Police Department            | 20 (estimate)  | 0                      | no        |                  | yes     | consent search yielded empty THC "candy" containers  | yes            | executed search warrant, recovered E-pen with THC cartridges.  | The marijuana seized was identified by suspect as "Colorado" marijuana  | According to individual users, the quality of marijuana in areas has improved.   |   |  |  |  |
| Bentley Police Department           | 0  | 0                      | no        |                  | no      |  | no             |  |   |  |   |  |  |  |
| Benton Police Department            | 0  | 0                      | no        |                  | no      |  | no             |  |   |  |   |  |  |  |
| BNSF Railway Police                 | 0  | 0                      | no        |                  | no      |  | no             |  |   | We have not received information regarding source from any contacts.   |   |  |  |  |
| Bonner Springs Police Department    | 0  | 0                      | no        |                  | no      |  | no             |  |   | No effect.   | From my observations, and the observations of my Detectives and property/evidence officers, there is no Colorado marijuana situation in our jurisdiction. The marijuana seized and booked into property has not changed in quantity, and there has been no evidence that any of the marijuana has come from Colorado. |  |  |  |
| Bronson Police Department           | nothing to report  |                        |           |                  |         |  |                |  |   |  |   |  |  |  |

| Cawker City Police Department                        | 0        |                        | 0         | no               |   | no               |   |                  |  |   | none   |   |  |  |  |
| Chanute Police Department                            | 3        |                        | 3         | no               |   | no               |   |                  | Through investigations, it was told to us by the suspect that's were it came from. Also had individual bags marked with different type of marijuana on them.   | College aged kids bringing it to our jurisdiction   | Make a new law on transporting across state lines being a felony for the first time conviction.  |   |  |  |  |
| Chapman PD   | 0        |                        | 0         | yes              | Many youth in our high school obtain marijuana from Junction City or Salina and then bring it back to our schools. So far this has only been personal use amounts | no               |   |                  |  |   | Honestly I haven't seen any major effects since the legalization.  |   |  |  |  |
| Chase County Sheriff's Office                        | 0        |                        | 0         | no               |   | no               |   | No               |  |   |  |   |  |  |  |
| Chautauqua County Sheriff's Office                   | 1        |                        | 0         | no               |   | no               |   |                  | The suspect was arrested during a traffic stop, driving through the state. The suspect admitted the marijuana was from Colorado.   | Minimal   |  |   |  |  |  |
| Cheney Police Department                             | 0        |                        | 0         | no               |   | no               |   |                  |  |   | Minimal as of now  | I am a DARE Instructor and have been since 2000. It is of great concern to me that eventually the Legalized Marijuana from Colorado will affect my jurisdiction or someone that I have provided the DARE Program to. I sincerely hope and pray that the State of KS never legalizes marijuana in any way, shape or form.  |  |  |  |
| Cherokee County Sheriff's Office                     | 3        |                        | 0         | no               |   | no               |   | yes              | In one case, 15 pounds of marijuana was intercepted while being trafficked from Colorado and delivered to our county. In another case, a search warrant was conducted on a local resident who had a medicinal marijuana card from Colorado and information had been obtained that the resident was frequently traveling to Colorado to obtain marijuana and bring it back to Kansas. | Although we have only had a few confirmed cases of Colorado marijuana, we believe those cases are evidence that it is not just an issue impacting western Kansas sheriff's, but is growing statewide. |  |   |  |  |  |
| Cherokee Police Department                           | 0        |                        | 0         | no               |   | no               |   | no               |  |   | Very hard to locate Colorado Marijuana usage, surely we have it in the jurisdiction but have not had the resources to locate the usage or transportation as of yet only local users and growers have been apprehended.                           | Cherokee is located on the well-traveled US400 Artery from Colorado to the eastern United States. With Grant assistance, a 24/7 police drug interdiction unit and dogs units, the City of Cherokee could have an extensive drug interdiction impact. The drug transportation/smuggling in my estimate would exceed 1 million per year for the great State of Kansas and Cherokee jurisdiction. Cherokee needs 24/7 coverage of the US400 route and a building to house the seizures and police headquarters. The Chief and Assistant Chief have been DEA certified in the mid-west counter drug training center Iowa. |  |  |  |
| Chetopa Police Department                            | 0        |                        | 0         | no               |   | no               |   | no               |  |   |  |   |  |  |  |
| Cheyenne County Sheriff's Office                     | yes      |                        |           |                  |   |                  |   |                  |  |   | The numbers haven't changed, but people say they aren't buying local anymore. They just drive to Colorado and bring it back.   |   |  |  |  |
| Chief Kanopolis Police Department                    | 0        |                        | 0         | no               |   | no               |   | no               | Individuals from my small jurisdiction have been arrested with what was in fact Colorado marijuana as it was still in the purchased containers and marked by the vendor in Colorado.   | The effect has been with the surrounding agencies ie: Ellsworth Police Department and Kansas Highway Patrol   | There is an increase in use and sales due to the individuals from my small town jurisdiction being arrested and charged in joining jurisdictions.  |   |  |  |  |
| Chief of Police/Sac and Fox Police Department        | 0        |                        | 0         | No               |   | no               |   | no               |  |   | No effect seen in this area.   |   |  |  |  |
| Chief of Police/Westwood KS                          | 1        |                        | 1         | no               |   | no               |   | no               | It was a traffic stop. There was a small amount of marijuana located and the driver openly admitted that he had brought it back from Colorado  | minimal know to us at this point  | We had another subject that we were arresting for another reason, who explained all of the various possession laws in Colorado.  |   |  |  |  |

| Office/Agency                              | Seizures                         | Arrests for impairment | Juveniles | Please elaborate   | Edibles | Please elaborate   | Other products | Please elaborate   | How do you know it's from Colorado?   | Overall effect   | Any other information   |  |  |  |

| Clay Center Police Department              | 0                                | 0                      | yes       | One juvenile was arrested for possession of what was believed to be marijuana from Colorado.   | no      |  | no             |  | It is known the juvenile arrested had earlier had some Colorado marijuana. We assume that the small amount he possessed may have also come from Colorado.   | Minimal.   |   |  |  |  |
| Clay County Sheriff Dept                   | 0                                | 0                      | no        |  | no      |  | no             |  |   |  |   |  |  |  |
| Cloud County Sheriff's Office              | 20                               | 12                     | yes       | We have been seeing a rising number of traffic stops where people are ingesting marijuana while traveling through our area. It is not always a large amount however after talking to the suspects, it is indicated that it originates from Colorado. | no      |  | yes            | We have had a couple arrests where e-cigarettes were found that contained marijuana wax. | Several of the individuals arrested made comments that the marijuana originated in Colorado even though it went through two or three people prior to the suspect having it. On certain incidents I have researched the packaging in order to link the marijuana back to Colorado. Social media sites have been used as well. Arrests have been made where the suspects were transferring money back to Colorado through Walmart and marijuana was being sent to our area. | There seems to be an increase in marijuana use and possession in our area since the legalization. Marijuana seems to be obtained easier now.   | My biggest concern is how many people are ingesting marijuana while traveling through our county. This has become more common than drinking while driving in our area.  |  |  |  |
| Coffey County Sheriff's Department         | approximately 3                  | approximately 3        | no        |  | no      |  | no             |  | Information obtained from subject in possession.  | Many marijuana users in the area now justify the use as ok to use locally.   |   |  |  |  |
| Coffeyville Police Department              | 1 for sure Colorado marijuana    |                        | 2         | no   | no      |  | no             |  | Suspect stated they drove to Colorado and bought the marijuana.   | Colorado marijuana is a higher grade more accessible marijuana on our streets.   | I feel there is a lot of Colorado marijuana in my area but not verified. A lot of the marijuana collected as evidence appears more 'engineered' and referred to 'higher grade'. The rumor mill is saying there are a few people from my area that are going to Colorado and buying marijuana, but as of now I have no solid evidence as of yet. |  |  |  |
| Colby Community College                    | Unknown                          | Unknown                | no        |  | no      |  | No             |  | If marijuana is found we have difficulty proving where it has come from.  | Due to the number of Colorado residents/the legalization of marijuana in Colorado we suspect that it is being brought across state lines. The ease of obtaining this substance may be influencing it's use at our College. | This is a very complex question to answer.  |  |  |  |
| Colby Police Department                    | approximately 36 of the 65 cases | ~5                     | yes       |  | yes     | Waxes, oils, candies, cookies have all been located, always accompanied by green leafy marijuana | yes            | waxes, oils, candies, cookies, all accompanied by green leafy marijuana                  | Interviews with suspects revealed the source, or packaging indicated source was from dispensary.  | Drug cases by year<br>2012-17<br>2013-46<br>2014-62<br>2015-65   | More and more travelers coming through our jurisdiction from other states to purchase marijuana products and traveling back to home states. Seeing more cases of edibles, waxes, oils, food products being transported as well.   |  |  |  |
| Colony City Marshal                        | 0                                | 0                      | no        |  | no      |  | no             |  |   | No known Colorado marijuana being in the Colby, KS area.   |   |  |  |  |
| Columbus Police Department                 | One                              | Zero                   | no        |  | no      |  | no             |  | Based off of the packaging the marijuana was found in, along with suspect's admission that it was from the State of Colorado  | From what we can actually confirm, there has not been that much of an effect in our jurisdiction   | We have received information that there are subjects in our jurisdiction that receive marijuana from Colorado, but we have been unable to obtain enough information that would confirm that   |  |  |  |
| Colwich Police Department                  | none                             | none                   | No        |  | no      |  | No             |  |   |  |   |  |  |  |

| Cowley County Sheriffs Department   | Four     | Three                  | no        |  | no      |   | yes            |   | In an arrest in Jan. 2015 the marijuana was in bottles that were labeled. The labels stated the marijuana was grown by the Mile High Recreation in Colorado. During a search warrant in April, 2015 officers found marijuana wax. There was a lot of literature found in the house from marijuana parties in Colorado. During an arrest in May, 2015 the girlfriend of the suspect told officers the suspect suffers from PTSD which he controls with marijuana. She told officers all the marijuana and paraphernalia found were the suspect brought with him from Colorado because it was legal to buy it and he could get bigger quantities there. I am unsure of circumstances of the fourth arrest in January, 2016. The arresting officer told me the driver had Colorado marijuana on him when arrested. | speculate there are more marijuana cases in our jurisdiction containing Colorado marijuana.  | There have been reports about a local car dealership transporting marijuana from Colorado. The owners son is said to be using car off the lot to make trips to Colorado and bring back large quantities of marijuana. It has only been reports so far, there hasn't been any evidence to show this is occurring. |  |  |  |
| Crawford County Sheriff's Office<br>Decatur Co. S.O.  | 0        | 0                      | no        |  | yes     | by word of mouth there is a serious problem with Colorado Marijuana coming into Kansas. We have not seen it in the arrests we make. | no             |   |   | most of the marijuana coming thru our Co. comes from the south by way of US 83 The recreational marijuana comes from Colorado  |  |  |  |  |
| Delphos Police Department<br>Derby Police Department  | 0        | 0                      | no        |  | no      |   | no             |   |   |  | It is often difficult to determine the origin of illegal drugs, particularly marijuana. This is compounded by the fact that often times the person arrested is not the person who made the original purchase.  |  |  |  |
| Dickinson County Sheriff's Department   | 20       | 0                      | no        |  | yes     | Candies, drinks, consumable food (cookies, brownies....etc.)  | yes            | Waxes/oils are being used more due to the high THC content.   | We were told by the subject at the time of the arrest where he was coming from and where he purchased the marijuana.  | It has become a bigger problem and is being found more frequently as more and more people are going to Colorado and purchasing it and transporting it across the country on the highways.  | Request agencies to provide information of the origination of the marijuana seized and report to the A.G's office annually.  |  |  |  |
| Dodge City Police Department  | 1        | unable to state        | yes       | The best guess of our narcotics detectives is that approximately 90% of all marijuana seized here comes from Colorado. This is based on street level intelligence and logistics.   | yes     | Gummy bears, brownies and marijuana cookies have been found here.   | yes            | Marijuana oils and concentrated extracts such as wax and shatter have been found here.  | Due to street level intelligence given to our detectives and officers. People say this marijuana is very easy to get and is a short drive away. The overall appearance of the marijuana from Colorado is much different than marijuana that comes from Mexico.  | The availability of marijuana has drastically increased.   |  |  |  |  |
| Doniphan County Sheriff Department  | 0        | 0                      | no        |  | no      |   | no             |   |   | Our county is in the far northeast corner of Kansas and we have not been affected by the colorado marijuana.   |  |  |  |  |
| Douglas County Sheriff's Office   | 9        | 9                      | yes       | Marijuana has always been a problem in Lawrence and Douglas County, with most people thinking it is due to 'College Kids.' As this may be an accurate statement in some degree, marijuana is not specific to just 'College Kids.' Marijuana use and distribution has evolved and increased tremendously over the past several years, and is being used by High School and Middle School students on a daily basis. A large portion of this marijuana is brought in from Colorado, and this statement can be supported by the fact that marijuana grow operations are almost non-existent. Additional supporting facts are the potency of THC from elaborate indoor marijuana grows and the availability of edibles. Another problem facing this community due to legalization of marijuana in Colorado is the increase of home invasion robberies, where subjects have traveled to Colorado to pick up marijuana and have distributed, leaving them with a large amount of cash. Subjects will often times learn of travel plans to bring marijuana back, and will conduct these robberies after the marijuana has been sold. These robberies have resulted in | yes     |   | yes            | Marijuana wax is popular right now for several reasons. It's easy to conceal and easy to use. Often times this is what is being used by the College, High School and Middle School kids. Additionally, this is very common with E-Cigs and is being smoked in public where unknowing citizens are being subjected to the use. | Through the course of long term investigations and interviews it was determined the supply was coming from Colorado.  | It has increased the use of marijuana in this community because it is a quick turn around time for re-supply and re-sale. Most of the subjects that are traveling to Colorado to get marijuana are not getting small amounts. They are getting a large amount to distribute in this community. | The most notable impact that marijuana legalization has had is the increase of other drugs such as heroin and methamphetamines. Subjects will often times travel to Colorado to get re-supplied marijuana from the same subjects that are dealing other illicit drugs.   |  |  |  |

| Elwood Police Department           | 0   |  | 0 no      |  | no      |   | no             |   |   | Low to none   |  |  |  |  |
| Emporia Police Department          | 50+ cases. Our Narcotics units advised the "quality" of marijuana is higher and the dopers are proud of it since Colorado passed their law. The narcotics unit advised they believe the marijuana collected in 2015 is almost all from Colorado though in some instances they cannot prove it. The 50+ estimate (over 2 years) is conservative and does not include juvenile stats. | 20+ There is no way to know how many "impaired" people have been arrested after smoking marijuana specifically from Colorado but if most of the marijuana we find is from Colorado then most of those impaired while smoking marijuana will have smoked Colorado weed. | yes       | At least 8-10 cases at the local high school/middle school involving the flavored marijuana fluids and vapor cigarettes. These are almost odorless and must taste good. Like the gummies and other edibles they are very attractive to the young. No data was kept that shows these fluids came from Colorado but this would be the nearest source for the Marijuana edibles and flavored vapor smokes. In addition, 10+ cases where a car stop is made or juveniles contacted and in possession of marijuana. | yes     | Gummy worms, gummy bears, lollipops, rock candy, cereals, candy bars, snack bars etc. All are packaged to resemble candy or cereal. I would not know the difference at a glance if they were next to candy/cereal on a store shelf.   | yes            | About 10 instances of Various waxes and oils. Also flavored marijuana fluids that can be put into the vapor cigarettes.                         | Persons arrested may brag or say the marijuana was brought from Colorado. Markings on packaging indicate from Colorado. (these markings are on wrappers, on pill bottles, and in some instances on labels on sealed bags that name the brand of marijuana, amount, etc. | see question 8  | We have a substantial migrant population from Mexico and further south. It is likely that some of our marijuana, especially in these populations, may still be brought in from there or elsewhere. This marijuana seems to be lower quality, more plainly packaged, and does not include edibles, etc. |  |  |  |
| Emporia State Police               | 0   |  | 0 no      |  | no      |   | No             |   |   | Minimal. Although there are rumors that some of this product is being purchased 'legally' in CO and transported into KS, our officers have not been able to verify the point of origination.  |  |  |  |  |

|--|--|--|-----------|--|---------|--|----------------|--|--|--|--|
| Finney County Sheriff's Office   | I estimate approximately 45 seizures since 2014.   | I estimate approximately 51 arrests with the majority of those arrests coming from persons using Marijuana.  | yes       | Several juveniles have been arrested with ounce quantities of Marijuana in this jurisdiction and they were involved in the distribution of Marijuana to other juveniles.   | yes     | We have located Marijuana edibles to include, THC infused chocolate bars, peanut-butter cookies, sour candy, caramel suckers, watermelon candy, and THC oils. The majority of the seizures of the edibles are in conjunction with search warrants related to drug sales.   | yes            | Approximately 1 pound of Marijuana wax was interdicted on 01/12/2016 from a bus from Colorado that was passing through our jurisdiction.   | I believe that the Marijuana that we have seized is from Colorado based on multiple admissions from suspects along with several other factors. This agency rarely finds any of the compressed brick Marijuana that was historically attributed to Mexico. The Marijuana that is located now is usually in the form of the high potency Marijuana buds associated with the Medical Marijuana from Colorado dispensaries. Packaging from dispensaries is often located in our jurisdiction. Several subjects admitted to purchasing Marijuana in Colorado from subjects directly instead of dispensaries (claimed to have purchased excess from growers).  | I feel that the legalization of Marijuana in Colorado has increased the amount of Marijuana in my jurisdiction. I also feel that it has increased the amount of dealers as now anyone can travel to Colorado and purchase Marijuana and return to Kansas and sell the Marijuana at a substantial profit. The numbers I listed for arrests and seizures do not include the stats for the Garden City Police Department, as they will submit numbers also that include the local drug task force stats.  | Through interviews of those arrested, it is common for them to state that the Marijuana is from Colorado.  |
| Florence, Kansas   | 0  | 0  | no        |  | no      |  | no             |  |  |  |  |
| Ford County Sheriff's Office   | 16   | 19   | yes       | The marijuana was in a container, that had a label with the marijuana distributor's name and address out of Colorado.  | yes     | The marijuana edibles were in a package with a label that had the marijuana distributor's name and address out of Colorado. Also located receipts for the edibles.   | yes            | The marijuana waxes were in a package with a label that had the marijuana distributor's name and address out of Colorado. Also located receipts for the waxes.   | With the cases of marijuana from Colorado, containers had labels with addresses and name on them from Colorado.  |  |  |
| Frankfort Police Dept  | none   | none   | no        |  | no      |  | no             |  |  |  |  |
| Franklin County Sheriff's Office/Franklin County Drug Enforcement Unit | 2  | 2  | no        |  | yes     | Suspects were found to selling candies, suckers and gummies that contained THC. The product's were labeled from Colorado companies selling them legally in their state.  | yes            | Suspects were found to be selling marijuana wax and high grade marijuana that originated from Colorado. The suspects were receiving packages through the US mail that contained these products.  | During the investigation of these drug violations, it was found that labeling on the products indicated that they were sold in the State of Colorado. One of the cases involved a traffic stop where the driver was traveling from Colorado to the Kansas City area with marijuana products.   | We believe that at least half of the marijuana seizures in our jurisdiction originate from Colorado, including other states that have legalized marijuana. The cost of high grade Colorado marijuana is also driving up the burglary, thefts and financial crimes due to users trying to afford it.  |  |
| Frontenac Police Department  | 0  | 0  | no        |  | no      |  | no             |  | N/A  | N/A  | N/A  |
| Ft Hays State University Police Department                             | 10   | 0  | no        |  | no      |  | no             |  | When seized, suspect said it was from Colorado or the suspect was from Colorado or a nearby bordering county.  | Many students think that because it is legal in Colorado it is legal in Kansas, they also think that medical marijuana from Colorado is legal as well.   | Short of catching a suspect who is crossing the border with it, or they tell law enforcement where they obtained their marijuana, it will be difficult to determine the product came from for most agencies.   |
| Galena Police Department   | 0  | 0  | no        |  | no      |  | no             |  |  | Have not had it show up in our jurisdiction yet.   |  |
| Garden City Community College Police Department                        | 4  | 1  | yes       | One incident in our jurisdiction involving 3 juveniles & 2 adults. One of the individuals admitted the marijuana originated in Colorado.   | no      |  | no             |  | Persons involved provided information. Also, during another incident the marijuana was inside a commercial Colorado marijuana container.   | We have experienced an increase of marijuana use since 1/1/2014. Our PD and surrounding law enforcement agencies are increasing efforts to educate and enforce laws-K9 sweeps.   | I would recommend that a confidential survey be conducted on college campuses (State wide) to determine the impact from the students point of view. Many students support law enforcement's efforts to deter use.  |
| Garden City Police Department  | Approximately 552 arrests have been made for marijuana possession or distribution from January 1, 2014 to December 31, 2015. | This question is impossible to answer with any degree of accuracy as our department does not differentiate DUI arrests as to whether the person was under the influence of alcohol or specific drug. | yes       | Approximately 74 juveniles have been arrested for possession of distribution of marijuana between January 1, 2014 to December 31, 2015. As a member of our local drug task force for approximately the past 19 years, marijuana usage by juveniles have always been common, however, it does appear more juveniles are using the drug with little fear of its consequences either legally or physically. | yes     | Our department does not track cases specifically describing THC edibles. However, I have observed on at least 10 cases where small amounts of such products have been seized to include THC chocolates, fudge, hard candies and oils. With each of these cases, the products were labeled in such a way that it suggested it was purchased from a Colorado marijuana dispensary. | yes            | Again, our department has received seized small amounts of "wax" and "THC oil", but it does not appear to be commonplace as of yet. I have not had heard of any incidents where the wax or THC oil were manufactured locally and is suspected to have originated in Colorado dispensaries. | Prior to the influx of Colorado marijuana, virtually all of the marijuana seized in our jurisdiction was compressed marijuana referred to by locals as "reggie" with Mexican origins. This type of marijuana is rarely seen any longer in our jurisdiction and virtually all the marijuana seen here are from Colorado either legally from dispensaries or underground black market sources. From multiple interviews with persons arrested with marijuana, I have learned that few users desire "reggie" marijuana as Colorado marijuana is much more potent. One user in particular described how he could get a better and longer high from one cigarette of Colorado marijuana than from an entire "quarter sack" (7 grams) of "reggie". In the past two years, I have not heard of any marijuana suppliers obtaining marijuana from any other sources other than what originated in Colorado. | For one, I believe the legalization of Colorado marijuana has made it much more accessible in our jurisdiction. One can drive from Garden City to Denver in a few hours and easily and legally purchase up to one ounce of marijuana. From interviews with users, a full ounce of Colorado marijuana is considered a very large amount. Colorado marijuana on the streets of our city is typically distributed to users in one gram quantities. I also believe the legalization of the drug has removed much of the legal "stigma" against the drug and it has become much more socially accepted and the numbers of our youth who smoke marijuana is ever increasing. Furthermore, it has led to a dramatic increase in marijuana distribution attributed to its easy accessibility. Persons wishing to distribute marijuana find it very profitable. A legal purchase of marijuana from a dispensary in Colorado can be obtained for as little as \$100. Selling it by the gram in Garden City for \$20 each, a dealer can profit around \$460 for each ounce. Prior to the easy accessibility in Colorado, dealers would have to have a "connect" in the black market to obtain marijuana from Mexican origin sources thus the numbers of distributors were not nearly as high as they are now. | Again, as described above, the legalization of marijuana in Colorado has greatly increased the number of both users and dealers in our jurisdiction. It has created an atmosphere that the drug is harmless and in fact should be legalized in Kansas. Though I am not under the illusion it is as harmful as methamphetamine, it is still detrimental to the safety of our community, especially considering how more potent the drug in now compared to marijuana from the past. Furthermore, from years of enforcing drug crimes in our community, it is commonly known that "today's marijuana dealers are tomorrow's meth dealers". |
| Garden Plain Police Department   | None   | None   | no        |  | no      |  | no             |  |  |  |  |

| Office/Agency                   | Seizures   | Arrests for impairment   | Juveniles | Please elaborate   | Edibles | Please elaborate  | Other products | Please elaborate                                    | How do you know it's from Colorado?  | Overall effect  | Any other information  |  |  |  |
|---------------------------------|--|--|-----------|--|---------|---|----------------|---|--|---|--|--|--|--|
| Harper Police Department        |  | 2  | 0         | yes  | no      |   | no             |   |  |   |  |  |  |  |
| Harvey County Sheriff           | 91 (estimate)  |  | 91        | no   | yes     | candy, lollipops, and cookies   | yes            | wax and oil   | interviews of drivers and passengers   | Since the legalization in Colorado, we have certainly seen an uptick in drug cases at the Harvey County Sheriff's Office and greater seizure of drugs. In March of 2015, we put together a special Task Force, Safe Highway and Roads Initiative (SHARI). SHARI was responsible for 32 traffic stops; the vast majority of them involved the transportation of drugs with Colorado connections. The legalization from Colorado has also provided the Harvey County Sheriff's Office with cash and vehicles through successful forfeiture cases. The results of the forfeitures have provided the Sheriff's Office with needed equipment (in car cameras, MDT's, training, flashlights, and other equipment that was not supported by the yearly Sheriff's budget).  | I must make sure it is understood that these numbers are only estimates and not backed by true statistical data.   |  |  |  |
| Haskell County Sheriff's Office |  | 27   | 0         | no   | yes     | Both KHP stops- Gummies, Suckers, Etc.  | Yes            | Got ear wax both locally and off traffic stops.     | Marijuana is being seized with dispensary labels on packaging.   | Seen increase in cases. Officers have to keep up with new trends and products, so they know what to look for.   | These are combined statistics of both the Haskell County Sheriff's Office as well as KHP arrests within Haskell County. Statistics were gathered utilizing jail logs as well as meeting with prosecuting attorney's office to attempt to get the most accurate data. |  |  |  |
| Havensville Police Department   |  | 0  | 0         | no   | no      |   | no             |   |  | None  |  |  |  |  |
| Hays Police Department          | We have evidence that 60 seizures were Colorado marijuana. | We have evidence that 70 of the 518 marijuana arrests involved Colorado marijuana. | yes       | We have had four (4) incidents where we have evidence that someone had obtain marijuana in Colorado and then supplied it to juveniles in Hays, Ks. I am confident that this number is much higher but we do not track this data. | yes     | We have had six (6) incidents where we had marijuana edibles in the form of candy, gummies, & brownies. | yes            | We have had three (3) incidents that involved oils. | I believe that the marijuana in these cases was Colorado marijuana because the suspect(s) would either state that they got the marijuana in Colorado, they were from Colorado, or they had Colorado tags. Listed below are the Case #s, number of arrests, and why we believe that it is Colorado marijuana. We have the data in an excel sheet.<br><br>14-31441 arrest - purchased the marijuana in Colorado<br>14-88371 arrest - said the marijuana was from Colorado<br>14-89991 arrest - Colorado tag - had medical marijuana registry - cannabis oil<br>14-10052 2 arrests - were from Colorado - Colorado tag<br>14-10555 2 arrests - purchased the marijuana in Colorado<br>14-11878 1 arrest - got the marijuana in Colorado<br>14-12022 1 arrest - purchased the marijuana in Colorado - included edibles<br>14-13099 1 arrest - got the marijuana in Colorado<br>14-13735 1 arrest - Colorado tag - didn't say if the marijuana came from Colorado<br>14-16811 2 arrests - got the marijuana in Colorado<br>14-16894 no arrest - suspect from Colorado<br>14-17007 1 arrest - from Colorado<br>14-18401 1 arrest - purchased the marijuana in Colorado | I believe that the legalization of marijuana in Colorado has increased the availability and given our community easier access to the drug. While our marijuana arrests by the Hays Police Department are only up slightly (compared to the previous two (2) years), I believe that this is due to the change in case law surrounding vehicles inventories and to our Patrol Division operating with 20%+ less manpower (unable to fill slots with qualified applicants). One of the biggest concerns I have is the use of candies and edibles to target the youth in our community in an effort to get them to become users of marijuana. The edibles and the oils also make it harder to identify that the item is contraband, and as a results officers may miss the marijuana during the search.<br><br>Marijuana Arrests:<br><br>2012-223<br>2013-284<br>2014-274<br>2015-244 | NA   |  |  |  |
| Haysville Police Department     |  | 1  | 1         | no   | no      |   | no             |   | On 09/10/2014 officers found an adult male and an adult female in one of our parks after hours. Both were in a car with valid Colorado plates. They had stopped to sleep and get "high". Our K-9 officer used his dog to search the vehicle with the owners consent. The dog did locate marijuana in the vehicle. The female claimed ownership of the marijuana. She told officers she had purchased the drugs in Colorado prior to their trip to our jurisdiction to see her mother. Besides her confession, officers noted there were three bottles of marijuana. All three bottles were the same type however; the packaging is not commonly used in our area. Our K-9 officer is familiar with the packaging used to purchase marijuana in Colorado. He said all of the packaging was consistent with how licensed marijuana shops in Colorado sell it.  | We have not really seen any significant problem within our jurisdiction.  | I think this method of information gathering is a very good way to gage the problem.   |  |  |  |

| Kansas City, Ks. Police Department / Narcotics Unit        | Estimated - 70   | Estimated - 10         | no                     |   | yes     | During several car stops edibles have been recovered. Items seized Gummies, Suckers & Chocolates.                      | no             |  | Subjects that were arrested gave an admission that items were purchased in Colorado.   | Legalization of marijuana has negatively affected our jurisdiction. By our estimates marijuana arrests have increased by 10%.   | Subjectively the legalization of marijuana in Colorado has increased resistance when confronted by officers. The legalization has led to the acceptance of marijuana, which increases the usage of marijuana by teenagers.                           |  |  |  |

| Kiowa County Sheriff's Office                       | 20   |                         |           |   | yes     | We have seen marijuana candy, marijuana drinks and other foods containing marijuana. The increase in ingestion methods, also means an increase in testing cost. |                |   | Interviews have revealed that a majority of the users in Kiowa County have gone to Colorado to purchase marijuana at one time or another. Comments have been made in reference to the higher THC levels in marijuana purchased from Colorado.  | Although we may not have seen an abundance of new cases as related to the legalization of marijuana in Colorado, Kiowa County Sheriff Officers have dealt with other effects of legalization. Kiowa County Sheriff Office resources have been utilized in the tracking and locating of mental health patients, as well as juvenile runaways, who have absconded to Colorado for the sole purposes of purchasing and using marijuana legally. | The Sheriff Office has not seen a dramatic increase in the number of consumers of illegal marijuana, but have seen the effects of the increased price of purchasing marijuana from Colorado as opposed to prior to legalization. The cost of "legal" marijuana in Colorado is reportedly more expensive than illegally obtained marijuana and the consumers are having to obtain a higher amount of currency to purchase it.  |  |  |  |

| Larned, KS Police Department                        | 1  |                         | 0 yes     | While working the scene of a suicide of an adult male evidence was found that he was getting marijuana from a friend who was from our area that had moved to Colorado. IT was also apparent from intel received and a ledger that local kids were frequenting this subjects home. | no      |   | No             |   | A diary of an adult deceased male (suicide) indicated he owed money to an acquaintance who had moved to Colorado and high grade marijuana was located in a locked box kept in the decedents refrigerator. Also neighbors reported a high volume of traffic (juveniles) coming and going from the decedents home. | Lots of verbal information (intel) being received that local users buy marijuana from local residents who make periodic trips to Colorado.   | Even though we haven't recovered a lot of marijuana that can be shown to come directly from Colorado, the word on the street is that there is a flow from that State to ours, making it to our area. I believe that States are selling out and giving up on the war on drugs to get money for failing budgets. There seems to be a shift in how the drug itself is viewed by the newer generation, equating the drug to being harmless as having a beer. Those of us in this profession know it is a gateway drug and it should be viewed and enforced as such. This trend of legalizing vices is not a good thing! |  |  |  |
| Lawrence Kansas Police Department                   | 16 seizures that were articulated to be Colorado Marijuana | 8 arrests               | yes       | While it is difficult to quantify the exact amounts of Marijuana from Colorado, I believe we have seen an increase in the amounts of Marijuana and Marijuana products that are being brought into our jurisdiction since the legalization in Colorado.                            | no      |   | yes            | We are seeing an increase in Marijuana 'Budder', Hash Oil, and wax.             | All information in reference to the origin of the Marijuana in the cases we found was gained through interview of the subjects involved.   | Our drug unit investigators report a dramatic increase in Marijuana from Colorado in our jurisdiction since the legalization of Marijuana in Colorado.   |   |  |  |  |
| Leavenworth Co. Sheriff                             | 0  |                         | 0 no      |   | no      |   | no             |   |  | The Leavenworth County Sheriff's Office has no information to provide in reference to the survey about Colorado marijuana. We have had no contact with or arrests of anyone in possession of marijuana from Colorado. We are not aware of any Colorado marijuana found in our jurisdiction. At this point, we can't say there has been any effect of Colorado marijuana in our jurisdiction.   |   |  |  |  |

| Leawood Police Department       | 2           | 0                      | no        |  | yes     | One incident in which the subject had possession of cannabis-infused lip balm, the container of which had the web address of maryjanemedicals.com and the disclaimer 'This product is unlawful outside Colorado and is intended for use by MMJ patients or adults over 21. Keep out of reach of children'. | no             |                  | Label on product (lip balm) indicating the product was from Colorado.   | Minimal.   | Must of the suspects won't say were they got it. If an unknown option would have been added to each questions that would have been how I answered it.   |  |  |  |
| Lebo Police Department          | 0           | 0                      | no        |  | no      |  | no             |                  |   |  |   |  |  |  |
| Lenexa Police Department        | 7 confirmed |                        |           |  |         |  |                |                  |   |  | (Case details in letter). While these are just several documented cases, we are confident that the vast majority of the marijuana we are seizing is from Colorado. While our reporting system doesn't have any sort of tracking mechanism, our officers are reporting that their arrestees are frequently admitting their marijuana is from Colorado. Furthermore, since the Colorado law change in 2014 we are consistently seeing higher grade marijuana. Prior to 2014, it was somewhat uncommon to find a lot of "high grade" marijuana. We know from training and experience that the Colorado marijuana farms can create a marijuana bud with a much higher THC content, which is preferred by the users. |  |  |  |
| Lewis Police Department         | 0           | 0                      | no        |  | no      |  | no             |                  |   | It has not changed very much. This is an Agricultural community, mostly have difficulty tracking current field(s) people are growing their own.  |   |  |  |  |
| Liberal Police Department       |             |                        |           |  |         |  |                |                  | When suspects are interviewed, Officers and being told that the majority of marijuana is coming from Colorado. This has occurred on numerous occasions and is common among the current users and dealers of marijuana in Liberal Ks. Suspects are advising that they travel to Colorado and purchase the marijuana from dispensaries and other local sources. | In a whole, within Liberal Kansas, we are mostly dealing with Colorado marijuana. Since the legalization in Colorado occurred we are not generally seeing marijuana come from sources other than Colorado. We seize it in small and large quantities; larger seizures are being made with vacuum sealed bags. The bags are written upon proclaiming the strain and weights of the product. | Marijuana coming from Colorado is dubbed as some of the best. Users and dealers of the drug are impressed with the quality. With increased quality, increased amounts of THC are also produced, causing a greater "high". As the quality of marijuana increases, the use of it rises as well.   | The Liberal Police Department has had to make changes into our drug storage facility because of the overpowering strong odor that the Colorado marijuana has. A fan had to be installed to help with the stench. Experienced officers and investigators can smell and see the difference between Colorado marijuana and outside sources. | Although we cannot show more marijuana being available in Liberal, based on Colorado's legalization policies; we do believe that Colorado marijuana has dominated our market since its legalization. |  |
| Lincoln County Sheriff's Office | 17          | 0                      | no        |  | yes     |  | 3              | no               |   | Any legalization of marijuana in my jurisdiction has some kind of impact.  | All Colorado marijuana seizures in my jurisdiction were taken by KHP unites on I-70   |  |  |  |
| Lindsborg Police Department     | 9           | 2                      | yes       | We have had two separate incidents where juveniles were found in possession of marijuana we suspected of coming from Colorado. | no      |  | no             |                  | Either the suspect stated it came from Colorado or the packaging was similar to packaging used in the sale of Colorado marijuana.   | I am unsure if it has increased marijuana usage in our area but it is certainly a higher grade of what we had been seeing in the past.   |   |  |  |  |
| Linn County Sheriff             | 1           | 0                      | no        |  | no      |  | no             |                  | Marijuana was found in possession of an individual from Colorado that was visiting relatives locally.   | minimal  |   |  |  |  |
| Little River Police Department  | 0           | 0                      | no        |  | no      |  | no             |                  |   | None so far. Town about 500 people   |   |  |  |  |
| Logan County Sheriff            | 10          |                        |           |  |         |  |                |                  |   |  |   |  |  |  |
| Lyndon Police Department        | 0           | 0                      | no        |  | no      |  | no             |                  |   | No change in effect has been observed in our jurisdiction so far   | Just because we have had no contact with those who may possess Colorado Marijuana as yet, does not rule out the possibility that it may only be a matter of time until we are affected. US-75 runs through the center of our Community and could easily become the open door that allows us to have a potential situation.  |  |  |  |

| Office/Agency                     | Seizures                                | Arrests for impairment            | Juveniles | Please elaborate   | Edibles | Please elaborate   | Other products | Please elaborate  | How do you know it's from Colorado?   | Overall effect   | Any other information   |  |  |  |
|-----------------------------------|---|-----------------------------------|-----------|--|---------|--|----------------|---|---|--|---|--|--|--|
| Lyon County Sheriff's Office      | over 100                                | over 100                          | yes       | It is common for the drug dealers to go to Colorado and buy the marijuana. They return to our area and distribute the marijuana throughout our community. It is uncommon for us to find or seize what is referred to as 'Brick Weed' which probably comes from Mexico and is almost obsolete in our community. | yes     | We find it 10% of the time. Edibles are hard to find due to the wide variety of different kinds. Most edibles are overlooked unless the suspect tells us what they are.  | yes            | We have swized numerous oils that specifically say they contain a certain amount of THC. Once again if the suspect leaves the oil in the actual container it is located and seized. If the product is removed from the original container it is hard to locate these items. Suspects often claim they order the oils over the internet and they are shipped directly to them. | We are often told by the suspects we seize the marijuana from. You can also tell by the strong odor or fluffy buds which is consistent with Colorado Marijuana.                     | It has been detrimental to Kansas. With the ease it is obtained we are having a hard time keeping up with the number of cases.   | We are finding a strange dependency of the drug by users that commonly use other drugs. It is not uncommon for a methamphetamine user to have marijuana in their possession. We are told they use methamphetamine in the morning and then smoke marijuana at night to go to sleep. We are finding the two used and possessed together more than we did prior to 2014. |  |  |  |
| Lyons Police Department           | 1                                       |                                   |           |  | yes     | A woman with an unauthorized rental car who hit a gas pump at the Kaps Store. She was on meth and marijuana. The highway patrol took the drug search in which she had marijuana 'gummy bear' candy and other candy with the listed THC on the packs. This was all from Colorado. |                |   |   |  | We are a smaller community and have some drug problems probably on scale with other communities the size of Lyons.  |  |  |  |
| Maple Hill Police Department      |   |                                   |           |  |         |  |                |   |   | I am a Kansas transplant from Washington State. I have been the City Marshal in Maple Hill for 10 months. Within that period of time, we have made no marijuana related cases. Also, there are no pending cases, or evidence related to marijuana cases currently in our records. Unfortunately, I have no data to contribute on this issue. |   |  |  |  |
| Marion County Sheriff's Office    | 0                                       | 0                                 | no        |  | no      |  | No             |   |   | I am sure it is here but it has not been specifically identified or indicated in any of our cases.   |   |  |  |  |
| Marion Police Department          | 2                                       | 0                                 | no        |  | no      |  | yes            |   | The suspect stated he got the marijuana in Colorado and was taking it back to St. Louis.  | It really has not effected us yet  |   |  |  |  |

| Marshall County Sheriffs Office   | 1                                       | 0                                 | no        |  | yes     | car stop in 2015 by a deputy and his k-9 on U.S. 36 yielded marijuana and edibles that were being transported from Colorado to Illinois by two females that stated that they went to Colorado specifically for that reason   | No             |   | suspects stated that they bought the marijuana and products from colorado   | minimal  |   |  |  |  |
| Mayetta Police Department         | 0                                       | 0                                 | no        |  | no      |  | no             |   |   | No noticeable effect.  | NA  |  |  |  |
| McClouth Police Department        | 7 cases total, unknown how many from CO | 6 total, unknown how many from CO | yes       | 4 juveniles with possession, unknown whether from CO   | no      |  |                | Since January 2014, there was one (1) incident where a marijuana by-product (i.e. wax/substance) was found. There is no information to indicate if the substance came from Colorado.  |   | I have no firm conclusion that the legalization of marijuana in Colorado has had any effect on the McClouth jurisdiction.  | I maintain the strong opinion that any legalization of marijuana or its by-products anywhere in the United States is a danger to our society and the health and welfare of our citizens, whether they engage in using marijuana or not.   |  |  |  |
| McPherson County Sheriff's Office | 30                                      | 15                                | yes       | Local Juveniles have been found in possession of medical grade marijuana from Colorado as this seems to be the marijuana that is the easiest for them to purchase. We've seen increases in the use, selling and purchasing at local schools.   | yes     | We've seized cookies, chocolates, and numerous candies and edibles containing Marijuana/THC directly linked to Colorado based on labels.   | yes            | Continuously seizing THC Wax and E-Cig canisters containing Cannabis and THC. These are being transported frequently through our jurisdiction and even staying locally.   | In this report I have only included data where the individual admitted the Marijuana was from Colorado or it was identified by labels/markings showing Colorado as state of origin. | Marijuana seizures have increased drastically due to the legalization, this is due partly to our location with US-56, K-61 and I-135 Highways located within our counties.   | Due to the increase we have created a Drug Task Force and in the process of assigning our K-9 unit to drug interdiction as a full-time basis.   |  |  |  |
| McPherson Police Department       | 20                                      | Unknown                           | yes       | Based off of other seizures in this city, some of the Marijuana seized form juveniles appear to be the same type of marijuana seized where the individual advised that it was Colorado marijuana.  | no      |  | yes            | We have worked approximately 12 or more cases where wax was seized and based from the interview of the suspect it was said to have come from Colorado.  | Interviews where the suspect said it came from Colorado.  | We believe that the (quality) and availability of Colorado marijuana from a neighboring state has increased the volume coming in to our community.   |   |  |  |  |

| Mound City PD   | 0                          |                        | 0 no      |                  | no      |   | No             |  | N/A  | N/A  | N/A   |  |  |  |
| Moundridge Police Department                            | 0                          |                        | 0 no      |                  | no      |   | no             |  |  | So far it has not been an issue that I can tell.   | I do hear of some locals that have gone to Colorado to get Marijuana but I have no evidence to back that.   |  |  |  |
| Mulberry Police Department                              | 0                          |                        | 0 no      |                  | no      |   | no             |  |  | no effect  |   |  |  |  |
| Nemaha County Sheriff Department                        | 3                          |                        | 0 no      |                  | no      |   | no             |  | case 1 - found in a labeled medication tube; case 2 - found on person who was returning from Colorado. He stated that it was given to him by a friend who had obtained it at a legal dispensary; case 3 - Jars containing marijuana were labeled Pure Medical Dispensary and subject stated that it was given to him while he was in Colorado. | Overall Colorado does not affect Nemaha County in a large way. Being as far from Colorado as we are, we do not have a large number of cases involving what we know to be as Colorado Marijuana. However, I do feel that it is a greater problem for Sheriffs in Western Kansas and is costing their agencies additional monies to enforce Kansas Law and incarcerate persons transporting marijuana from Colorado. |   |  |  |  |
| Neosho County Sheriff                                   | 1                          |                        | 0 no      |                  | no      |   | no             |  | found empty m/j container or packaging from Colorado   | Minimal due to geographical location.  | Geographically far enough away not seeing the affect.   |  |  |  |
| Ness County Sheriff's Office                            | none known from Colorado   | None                   | no        |                  | no      |   | no             |  |  | Unknown effect. I am sure there is, since we are approx 100 miles from state line.   |   |  |  |  |

|--|---|--|-----------|---|---|--|--|--|--|--|--|--|--|--|
| Newton Police Department                 | Between 2014-2015 our agency investigated 311 cases involving marijuana. Of these cases, it is difficult to note exactly how many are what I would consider "high grade" Colorado weed. As a drug detective 44 of those cases were mine and at least 90% of that marijuana was high grade. I would estimate on the low end at least 70% of the marijuana seized by the patrol division would also be classified as high grade marijuana due to the preference by users. | Since 2014, we have arrested 206 people for possessing marijuana and 29 people for distributing it. Again there has been no documentation as to whether those arrested were found to possess "high grade" Colorado weed or traditional Mexican grade marijuana. Due to having a college in our city we have also seen shipments of marijuana coming from California so it is difficult to determine which state the actual higher quality marijuana is originating from. | yes       | Of the 206 people arrested for possessing marijuana in our city, 23 of them were juveniles. Statistic problem documenting where the marijuana came from is the same as in question 2. | yes   | We have had a very small number of cases, where marijuana products to include marijuana wax and edibles have been located. There are less than 10 cases we have encountered these products and they were in personal use form, not for distribution. | yes  | We have had a very small number of cases, where marijuana products to include marijuana wax and edibles have been located. There are less than 10 cases we have encountered these products and they were in personal use form, not for distribution. | In all of our cases, it is difficult to say specifically how much marijuana originated from Colorado as this specific information is never noted or documented in our reports. There have been several larger quantity cases (multiple pounds) the patrol division have worked off of I-135 within our City. This marijuana was determined to have come from Colorado. The frequencies of these seizures have increased since the legalization of marijuana due to the availability. | Since the legalization of marijuana, we have seen an increase in higher quality marijuana in our cases. Although we cannot say without a doubt it is all from Colorado, as a Drug Detective it is logical for me to believe the majority of this marijuana is originating from Colorado due to the ease of availability.   |  |  |  |  |
| North Newton Police Department           | 75  |  | 3         | yes   | We see quantities from 2-15 pounds of Colorado Marijuana and 100's of edibles and wax at car stops. The majority are reselling the Marijuana.   | yes  | We have seen large quantities of candies, cookies, cakes and the like in vehicles we have stopped. These products are attractive to young adults and children. Dosage units are very high in these products.             | yes  | We have seen 100's of vials with hash oil which can be used in the Vape E Cigarettes. This has been common with young adults and children.   | Most of the products are clearly labeled with dispensary, city and state.  | Our case load has increased, overtime has increased.   |  |  |  |
| Norton County Sheriff's Office           | 0   |  | 0         | no  |   | no   |  | no   |  |  |  |  |  |  |
| Norton Police Department                 | 10  |  | 6         | yes   | Because of our relative proximity to CO, we often see or hear of MJ being brought from the Denver area. The individuals in Norton are distributing the MJ regardless of the age of the buyer.                   | yes  | We have seen candies, especially chocolates and our newest area of concern in butane hash oils (dabs or shatter). We have identified a local dealer who has shifted the majority of his product from regular MJ to dabs. | yes  | BHO is becoming a problem. Dabs/shatter is no readily available in Norton. This has been determined thru intelligence gathering and CIs. We are working to make cases on these subjects.   | Subjects arrested have identified it as being from CO. In some case it personal use has still been in the dispensers containers with the shop identified by Lic#   | Detrimental. It is easily obtainable and is of a much higher grade than that which typically would have been available.  | As a career LEO I would vehemently oppose the legalization of MJ in any form in KS. I recognize there may be medical benefits, but the easy access for the 'medical cards' has proven to be problematic in CO. Even before personal use was approved we still saw issues form 'medical marijuana'. |  |  |
| Nortonville Police Department            | 0   |  | 0         | no  |   | no   |  | no   |  |  |  |  |  |  |
| Norwich Police Department                | 0   |  | 0         | no  |   | no   |  | no   | N/A  | No effect  | No effect  |  |  |  |
| Oberlin Police Dept.                     | 5   |  | 0         | yes   | Two juveniles were found with marijuana in a container which had a Colorado marijuana store label attached to it.   | no   |  | yes  | Wax has been found on at least three occasions. Wax was never found in this jurisdiction prior to Colorado legalizing marijuana to my knowledge.   | In each case, the marijuana found was either labeled as being from Colorado or the suspect provided information indicating it was from Colorado.   | I believe it has increased the ease of availability and the volume of marijuana in our jurisdiction.   |  |  |  |
| Olathe Police Department                 | 19  |  | 4         | yes   | 16 year old provided Gummy Bears by parents to treat pain from medical condition.<br><br>17 year old possession/consumption<br><br>16 year old possession/consumption<br><br>17 year old possession/consumption | yes  | Gummy Bears<br><br>subject purchased MJ in CO, and made into edibles upon return to KS.<br><br>MJ candy<br><br>Edibles purchased in CO and transported back.<br><br>MJ wax recovered on traffic stop.                    | yes  | MJ wax recovered during a traffic stop.  | Various-<br><br>Admissions from suspects, text messages indicating purchase in CO, package shipped from CO intercepted, Med MJ with receipt from Wal-Mart in CO, CO residents brought from CO to sell in KS, Admission from suspect that his dealer frequently travels to CO to purchase and sell in KS. Admission a friend purchased for him while on trip to CO. | Minimal impact, but it is present. Olathe is a significant distance from CO and I suspect if we were closer to CO we would see a larger impact due to our population size. | We have had an armed robbery where suspects invaded a home under the belief they had just returned from CO with a large amount of MJ. This is an example of how the possession of MJ is not a non-violent crime.   |  |  |
| Onaga and Havensville Police Departments | 0   |  | 0         | no  |   | no   |  | no   |  | I would say the factual effect is small. I hear lots of people talking about kids going to Colorado and returning with marijuana products similar to candy bars, however we have not found any.  |  |  |  |  |
| Osage City Police Department             | 0   |  | 0         | no  |   | no   |  | No   |  | No known effect to date.   |  |  |  |  |

|---------------------------------|----------|------------------------|-----------|---|---------|---|----------------|---|--|---|--|--|--|--|
| Osage County Sheriff            | 2        |                        | 3 no      |   | no      |   | no             |   | All parties admitted to it being 'Colorado marijuana'  | 2 traffic stops and 3 arrests but probably more that haven't been caught yet. Not as big of crises here than counties closer to Colorado  |  |  |  |  |
| Osawatomie Police Department    | None     | None                   | no        |   | no      |   | no             |   | N/A  | Has not effected our jurisdiction.  | N/A  |  |  |  |
| Osborne County Sheriff          | 4        |                        | 0 yes     | 3 juveniles. The marijuana that was involved was believed to be coming from Colorado, based on the fact that Colorado vehicles had been seen frequenting the home of the juvenile's supplier for short periods of time and randomly | no      |   | no             |   | The marijuana dealers in our area of a smaller stature so the marijuana that is introduced into the area has already been repackaged and the only reason for our belief that it is from Colorado is based on information obtained from confidential sources and as stated above Colorado vehicles being parked at known drug dealer's homes. |   | The only marijuana seized by this agency that still had its dispensary packaging intact occurred prior to the time period specified.   |  |  |  |
| Osborne Police Department       | 3        |                        | 5 yes     | Had a JV that was selling. We believe the person they were buying from was getting it from Colorado.  | no      |   | no             |   | We have reason to believe that there was a runner to Colorado to pick it up  | increased your cases involving marijuana  |  |  |  |  |
| Oskaloosa Police Department     | 0        |                        | 0 no      |   | no      |   | no             |   |  | No Effects that this department has noticed at this time.   |  |  |  |  |
| Oswego Police Department        | 0        |                        | 0 no      |   | no      |   | no             |   |  | no effect   |  |  |  |  |
| Ottawa County Sheriff           | 0        |                        | 0 no      |   | no      |   | no             |   |  |   |  |  |  |  |
| Ottawa Police Department        | 5        |                        | 0 no      |   | no      |   | yes            | Yes, one arrest was made where a vapor cigarette was used to smoke marijuana oil that was from Colorado | The officers who made the arrest found receipts/evidence for marijuana purchased from Colorado and the suspects admitted to purchasing it there.   | It appears to be an increase in marijuana arrest in our jurisdiction.   | After reviewing the arrest made since Jan. 1, 2014 there were 133 marijuana arrest in our jurisdiction. 5 Marijuana arrest were from Colorado.   |  |  |  |
| Overbrook Police Department     | 1        |                        | 0 no      |   | no      |   | no             |   |  | minimal   |  |  |  |  |
| Overland Park Police Department | 13       |                        | 0 no      |   | yes     | one seizure of candy Marijuana, which the apprehended individual claimed the candy Marijuana was purchased in Colorado. | yes            | one seizure of THC oil and vegetation   | Two of the 13 seizures were made from people who held medical marijuana cards from Colorado and another was someone who had a "grow license" issued by the State of Colorado. Additional information included post arrest admissions, receipts, and dispensary containers with labels from Colorado dispensaries.                            | Total number of OPPD drug arrests: 2014 - 430, 2015- 564, both years - 994. Colorado marijuana arrests account for 1% of all drugs arrests.   |  |  |  |  |
| Paola Police Department         | 0        |                        | 0 no      |   | no      |   | no             |   | N/A  | No effects to date  | N/A No effect thus far in our City, to my knowledge.   |  |  |  |
| Park City Police Department     | 20       |                        | 26        |   | yes     | 6 seizures  | yes            | 7 seizures included waxes, oils, lotions, and E-cig products  | see attached case summaries  | First, we have noticed an increase in marijuana users possessing high quality marijuana that appears to be commercially produced and of high potency. We have also noticed an increase in offenders who respond to our enforcement incredulously, as if marijuana were legal in Kansas, resulting in increased tensions between law enforcement and the community. This includes juveniles and their parents who often criticize our enforcement and respond in a manner that could be described civilly disobedient. Furthermore, we believe that Colorado "legalization" may be increasing the willingness of our citizens to experiment with and consume marijuana, whereas before they may have been unwilling to do so due to the social stigma once associated with its use, along with possible arrest and conviction. | More information and detailed case summaries in letter.  |  |  |  |
| Pawnee County Sheriff's Office  | 4-5      |                        | 0 no      |   | no      |   | No             |   |  | I honestly don't feel it has impacted our community any worse then it was before becoming legal. Its always been here and always will be.   |  |  |  |  |
| Peabody Police Department       | 3        |                        |           |   |         |   |                |   |  | I think this is a growing problem in the State of Kansas. In conducting the investigations we have completed or in assisting other jurisdictions we have ran across one common theme <i>especially among juveniles</i> . People are going to Colorado to buy their marijuana and transporting it back to Kansas for distribution and personal use. From what we have gather it is not a quality issue relating to Colorado marijuana, it is that marijuana is readily available for sale in the State of Colorado.  | This information is just the tip of the iceberg so to speak. We have conducted many investigations and assisted other law enforcement agencies with investigations all stemming from marijuana suspected of coming from the State of Colorado. |  |  |  |
| Perry Police Dept.              | 0        |                        | 0 no      |   | no      |   | no             |   |  | have not identified Colorado Marijuana in our jurisdiction  |  |  |  |  |
| Phillips County Sheriff's Dept. | 3        |                        | 1 no      |   | no      |   | yes            | Hash oil found in with some of the other marijuana in the same traffic stop                             | Suspect stated it was from Colorado  | We are starting to more of it coming through the county   |  |  |  |  |

|--|---|---|-----------|---|---|---|----------------|---|--|--|---|--|--|--|--|--|
| Pittsburg Police Department                      | 7 incidents have clear evidence that marijuana/concentrates sourced from Colorado. This number is likely higher, however the vast majority of cases reported do not provide any indication of where or what type of marijuana was seized. | Not enough data collected from to provide an answer. The Department has had numerous DUI where marijuana is believed to contributed to the impairment, however none of these incidents indicate the source/type of marijuana recovered. | no        |   | yes   | THC-Edibles sourced from Colorado dispensaries have been seized on several occasions in Pittsburg and within the County. These included incidents where the edibles were believed to be distributed locally by dealers, as well as incidents of the users purchasing and transporting for personal use. | yes            | THC-Concentrate waxes have been seized along with edibles (candy, baked goods) on several occasions. Some of these are likely sourced from Colorado, however local operations to manufacture THC concentrate waxes have also been observed. | The reported incidents which were sourced from Colorado were identified either through packaging, phone exploitation, or interviews. | The availability of marijuana in Colorado is believed to have impacted the amount of marijuana distributors locally. Individuals involved in the illegal distribution, appear to have easier access to marijuana with a higher potency.    |   |  |  |  |  |  |
| Pittsburg State University Police Department     |   |   |           |   |   |   |                |   |  | We have had no indication or reference to Colorado marijuana in any of our cases.  |   |  |  |  |  |  |
| Plainville Kansas Police Dept                    | 2   |   | 0         | no  | yes   | Adult suspect was found with marijuana suckers.   | no             |   | Suspect stated it was from Colorado  | We know its here, just haven't seized alot   |   |  |  |  |  |  |
| Pottawatomie County Sheriff's Office             | a couple of cases   |   |           |   |   |   |                |   |  | Not a huge influx  |   |  |  |  |  |  |
| Prairie Band Potawatomi Tribal Police Department | Six   | Twelve  | no        |   | no  |   | yes            | In 2014 we saw an increase in commercial packaged marijuana within our jurisdiction.  | Packaging and statements from suspects   | Increased issues with sales at local businesses within our community as well as an increase in case load.  |   |  |  |  |  |  |
| Prairie Village PD                               | 32  | 60  | yes       | Multiple juveniles have been arrested with the containers which have the legal colorado logo's on it as well as arresting multiple people who admit to getting it from colorado who are selling to juveniles. | yes   | We have recovered THC wax and THC butter from multiple juveniles.   | yes            | We have arrested multiple juveniles who were possessing THC wax and THC oil.  | We have arrested multiple people who admit they are going to Colorado or have a friend going to Colorado to purchase marijuana.      | Since the legalization of marijuana in Colorado we have seen a large influx of marijuana. The amounts of arrests have greatly increased since January 1st, 2014 as well as the amount of marijuana being seized from these subjects.       | I have been told by many people that they are going to Colorado to purchase several pounds of marijuana or THC wax at a time. Also many of these are being purchase illegally in Colorado from places that are still selling it on the street or out the back door of dispensaries. |  |  |  |  |  |
| Pratt County Sheriff                             | 0   | 0   | no        |   | no  |   | no             |   |  | None   |   |  |  |  |  |  |
| Pratt Police Department                          | 1   | 1   | no        |   | no  |   | no             |   | Suspect stated he purchased the marijuana in Colorado.   |  |   |  |  |  |  |  |
| Rawlins County Sheriff's Office                  | 3   | 3   | no        |   | no  |   | no             |   | The Subjects told us they were getting it in Colorado and bringing it to Kansas.   | none   |   |  |  |  |  |  |
| Republic County Sheriff's Office                 | <5  | <5  | no        |   | no  |   | No             |   | Arrestee stated marijuana came from Co. Arrestee was also from Co.   | NA   |   |  |  |  |  |  |
| Rice County Sheriffs Office                      | 4   | 3   | no        |   | no  |   | no             |   | We asked the individuals where they got there marijuana directly and they advised Colorado.  | The marijuana is going to be here either way, but it easier to access from a legal point in Colorado. There also becomes the ability to get more options like foods, oils, and other items which we know are here but have not busted yet. |   |  |  |  |  |  |
| Riley County Police Department                   |   |   |           |   |   |   |                |   |  |  | Information included in Riley County District Attorney report. We have not had much impact from Colorado aside from a few cases that we linked back to the state.   |  |  |  |  |  |
| Roeland Park Police Department                   | 0   | 0   | no        |   | no  |   | no             |   |  |  |   |  |  |  |  |  |
| Rooks County Sheriff's Office                    | 10  | 3   | yes       | We have seen on most occasions people are pooling their money then a couple of them drive to CO and purchase the marijuana and bring it back. We have seen this from High school and college kids to adults.  | no  |   | yes            | Vehicle stop with est. 8 pounds of marijuana and 2 packages of dabs that can be used for vapor smoking.   | Suspect involved stated he was coming from Colorado and had a residence there.   | We have see an increase of possession of marijuana cases that suspects admit is coming from CO.  | I feel it has made a bigger issue to the bordering county's and interstate trafficking. We are seeing it more and more on the secondary highway's going east and west in our jurisdiction.  |  |  |  |  |  |
| Rose Hill Police Department                      | 3 (one actually in 2013)  |   | 3         | yes   | We established it came from Colorado either by the presence of a label or through an admission by the juvenile. | no  | yes            | I incident that was documented through statements/investigation.  | Label present / admission from subject.  | I believe it has made access to marijuana easier.  |   |  |  |  |  |  |
| Rush County Sheriff                              | 0   | 0   | no        |   | no  |   | yes            | Hash oil  | The packaging indicated it came from Colorado.   | There has been an increase. Interviews conducted on some cases has gained information that several people travel to Colorado to obtain marijuana.  |   |  |  |  |  |  |

| Office/Agency                   | Seizures  | Arrests for impairment | Juveniles | Please elaborate | Edibles   | Please elaborate  | Other products | Please elaborate  | How do you know it's from Colorado?   | Overall effect   | Any other information   |  |  |  |
|---------------------------------|---|------------------------|-----------|------------------|---|---|----------------|---|---|--|---|--|--|--|
| Russell County Sheriff's Office | 10  |                        | 5         | no               |   | yes<br>several edibles including marijuana candy bars, muffins, and honey.  | yes            | have encountered types of wax and oil based marijuana products labeled and wrapped along with other consumables | arrestees have informed officers that the marijuana involved came from Colorado. Also, several containers labeled what kind of marijuana it was, what distributor it came from along with address. Some containers were labeled with the Colorado State Flag. | It has increased the amount marijuana being transported through Kansas. It has caused an increase of transient traffic going west along our major highways. Suspects and/or arrestees use the legalization in Colorado as justification for possessing Marijuana everywhere else. It also causes more people to ignore the warning signs that Marijuana is illegal in Kansas. And has created a new supplier other than other states or countries. | If the Marijuana that was stated as being from Colorado is not marked in containers how is it known if it was bought in Colorado. Edibles are a great concern, because people thinking it is ordinary candies, cookies, or muffins as an example and unknowingly consume products with Marijuana is very dangerous. Also, Weapons have been found on individuals who were arrested for trafficking marijuana from Colorado. Weapons included guns and knives. Many of these people have long and violent backgrounds. Also with the backgrounds these people have been in jail numerous times and/or prison due to marijuana and other illegal drugs. Closing been trained and taught that Marijuana tend to lead into other bad things such as drugs and/or bad decisions.   |  |  |  |
| Russell Police Department       | 1   |                        | 1         | no               |   | yes<br>An officer responded to a local motel for a welfare check. During the check subject admitted to having Marijuana in his possession. The subject was found to be in possession of Marijuana in a pill bottle, THC candy and paraphernalia. Subject advised the Marijuana and candy was from Colorado. | no             |   | The incident we are aware of the subject admitted the marijuana was from Colorado. Our department has conducted several search warrants for drugs however we are unsure what comes from Colorado as the suspects wont elaborate.                              | As stated above, we are not sure where the Marijuana is coming from but seems to be more personal use showing up. Seems to be more transient traffic close to I70.   |   |  |  |  |
| Sabetha Police Department       | 0   |                        | 0         | no               |   | no  | yes            | THC Oil was mailed to an individual from Colorado but the evidence was not sufficient to prosecute.             | We informed by a significant other that the product found was mailed in from Colorado.  | Believe it is greater than we can tell, but we have not been able to establish if the marijuana in our area originated in Colorado.  | We are on the far east side of the state. It is tough to determine how much of our marijuana is coming from Colorado. We have had individuals tell us that Colorado marijuana is in the area, we just have not been able to confirm its origin when we find it.   |  |  |  |
| Salina Police Department        | 2014 Drug Task Force Marijuana seized = 14.1 lbs, 40 adult arrests, 3 Juvenile arrests;<br>2015 Drug Task Force Marijuana seized = 28.5 lbs, 70 adult arrests |                        |           |                  |   | yes<br>1 case involving THC/edible product 205.9 gm   | yes            | 1 case involving THC wax 1.8 gm   |   |  | Since 2014, we have not seen a great increase in the amount of marijuana cases in Salina, the trend is towards other narcotics. It is apparent that the majority of the marijuana we see in Salina comes directly from or has ties to Colorado. We know this based on information from people arrested and spoken to during these investigations. It is unknown exactly how much or an exact percentage of marijuana is coming from Colorado in relation to other areas of the country or within our state. We are in the process going forward of tracking this information so we can get a better understanding of the impact Colorado has on marijuana in our city. It should be noted the numbers above do not reflect marijuana cases worked by patrol as we have no way to determine where these cases originated from. |  |  |  |
| Saline County Sheriff's Office  | 44  |                        | 51        | no               |   | yes<br>We have seized 14.5 lbs of edibles since January of 2014.  | yes            | We have seized 3.5 lbs of wax/oils since January of 2014.   | Of the 129 drug cases that the SASO has investigated since Jan of 2014 there have been 44 tied to Colorado by statements or other evidence in the case.   | 1/3 of the drug cases we now work can be directly tied to Colorado.  | It's become much more common to find possession with intent cases coming from marijuana originating in Colorado.  |  |  |  |
| Scott City Police Department    | 25  |                        | 10        | yes              | We arrested three juveniles from Garden City who had gone to Denver to pickup 5 lbs of marijuana. The Marijuana was so strong that the officer could smell it as he approached their vehicle. | yes<br>We arrested a guy who had Marijuana and candy with the in it and he was coming from Colorado.  | yes            | We had a CI buy THC wax and an informant said it came from Colorado.  | The juveniles and the candy both suspects said that they came from Colorado where they bought the products.   | We no longer see brick weed out of Mexico, all our Marijuana now comes out of Colorado. It is better weed and alot more potent. It had driven the price up. We are getting over run by Colorado weed   | We arrested a 62 year old male last month who was dealing large amounts of Marijuana in our community he was dealing to adults and kids alike. He told us in an interview that he gets all of his Marijuana out of Colorado.  |  |  |  |
| Scott Co. Sheriff Dept.         | 2   |                        | 0         | no               |   | no  | no             |   | Subject stated they bought the marijuana in Colorado  | its just stopped that they would legalize it   | start up the KBI & DEA task force back in western Kansas  |  |  |  |

|--|---|--|-----------|---|---|---|--------------------|---|--|--|---|------------------------|--|--|
| Sedgwick County Sheriff's Office             | 60 Colorado marijuana cases total (cases listed in email attachment)  |  |           |   |   |   |                    |   |  |  | We have several other cases that we suspect being from Colorado due to the grade of marijuana but the suspects invoked their rights and we could not totally confirm the marijuana came from Colorado. We wanted absolute's so these cases are not counted.   | More details in letter |  |  |
| Sedgwick P.D.                                | zero  | zero   | no        |   | no  |   | no                 |   |  |  |   |                        |  |  |
| Seneca Police Department                     | 0   | 0  | no        |   | no  |   | no                 |   |  |  |   |                        |  |  |
| Seward County Sheriff Office                 | unable to have enough information to give a proper answer   | unable to have enough information to give a proper answer  | no        |   | no  |   | no                 |   | N/A not enough information collected to give a proper answer   | N/A not enough information collected to give a proper answer   | N/A not enough information collected to give a proper answer  |                        |  |  |
| Shawnee County Sheriff's Office              | 7   |  | 4         | unknown   | yes   | 4 cases - THC candy, chocolates and brownies  | yes                | 2 cases - butane and other paraphernalia to process the marijuana into wax and oil seized from traffic stop; 1lb of THC Butane Honey Oil seized from traffic stop   | The majority of interdiction cases are now marijuana. The THC content being higher brings more money to the drug dealer, in turn brings violence. The perception from the public and in some cases Law Enforcement is that marijuana is not a problem (really saw the mind set change after Colorado legalized marijuana). Our Drug Enforcement Unit has really seen a spike in subjects selling marijuana in Shawnee County due to the higher cost of it which in turn the dealer can make a larger profit. Subjects that we interview will tell us that the Colorado marijuana gets them higher than the "Mexican marijuana". The Shawnee County Sheriff Office worked a homicide where the victim was selling large amounts of marijuana. The victim's wife and two kids were in the house when the suspects entered the residence, shot and killed the drug dealer. Numerous pounds of marijuana and thousands of dollars in currency were discovered in the residence during the service of a search warrant at the homicide scene. I point this out due to the public having the opinion that marijuana is not a dangerous drug. With Colorado bordering Kansas, we have received information from numerous subjects/sources that users and dealers will drive to Colorado to pick up marijuana ranging from a pound of marijuana to multiple pounds. The close proximity makes it easier for subjects to get the marijuana, THC edibles and other THC products. | The majority of our traffic stops in Shawnee County are away from I-70. They are with local teenagers and adults involving marijuana seizures. We are not able to determine if the marijuana in some cases originated from Colorado due to the fact that some of these subjects are purchasing marijuana from Shawnee County citizens. We know from interviews with these subjects that they do not normally ask their dealer where they get their supply from.  | In closing I would say due to my training and experience that marijuana use is on the same level of methamphetamine as far as the ease of purchasing it. Most of the subjects we deal with can get either narcotic in a short amount of time. They both have become so wide spread through our community. Often times we ask methamphetamine users how they got started and they have told us that they started out with marijuana. |                        |  |  |
| Shawnee Kansas Police Department             | At least 5 documented cases.  |  | 5         | yes   | A juvenile in a local high school claimed the marijuana was purchased in Colorado but didn't provide how he obtained the marijuana. | yes   | 'Elephant Extract' | no  | The 5 that I mentioned all claimed to have purchased the marijuana legally in Colorado   | Very little in this part of the state.   |   |                        |  |  |
| Shawnee Mission School District Police Dept. | 0   |  | 0         | no  |   | no  | No                 |   |  | We have discovered no Colorado marijuana in our schools.   |   |                        |  |  |
| Sherman County Sheriff's Office              | 2012 - 26, 2013 - 60, 2014 - 70, 2015 data not collected yet, 97 by counting booking into jail. See letter for more details | I believe we have only had 2 that were only marijuana - I am unaware of how many alcohol arrests also had Marijuana. Information would not be available. | yes       | we have had several cases of juveniles arrests mostly with smoking but a couple edibles. The survey data of Kansas Communities that Care for Sherman County shows the increase from 2013 1.51% to 2015 6.86% of students in grades 6, 8, 10 and 12 reporting any use of marijuana within the past 30 days. Along with the increase in tobacco and alcohol use reported since the legalization in Colorado, it has had a devastating effect on the youth of our community. I have had a 4th grade student debate with me as to why they should be able to smoke Marijuana. | yes   | We have multiple cases with edibles ranging from soda drinks, suckers, peanut butter cups, etc. 2013 - 2 edibles, 2014 - 3 edibles, 2015 - estimated 15 edibles | yes                | We have had multiple cases that wax, oils, hash tar, Most of the arrest with moderate amounts has also included these products. Suspects would have small quantities of raw product with a wide selection of different products. 2012 - mostly raw with one liquid, 2013 - 3 hash oils, 2014 - 6 hash tar/oil and 2 wax, 2015 - estimated 10 hash tar/oil and 6 wax | Mostly all cases have been identified as Colorado Marijuana by the suspect admission to buying in Colorado or admission of traveling from Colorado, the labeling on the package, or the appearance of the Marijuana is consistent with the other Marijuana that could be positively identified as coming from Colorado. This is especially true for the 2013 and 2014 data. 2012 it was not as defined.  | The affect to my agency has been profound and I have had to redirect resources to help cover this problem. My Food budget was over \$11,000 even though I had made adjustment in April to help control this problem. I started purchasing cheaper meals and other measures. I also told my deputies to not bother with the smaller amounts unless we could turn them to help build cases on the Dealers. I also believe the KHP started doing more summons and not arresting for small quantities. I have also had fewer resources to deal with normal patrol because of having to reassign personnel to the Bastille and transporting the individuals that did not show up after the court started releasing the individuals quicker on Own Recognizance Bonds. | The cost to the Sherman County citizens is hard to measure on a numerical scale. I have had to change my decisions on how I wanted to run my Office because of the added cost to care for the Colorado marijuana dealers arrested transporting through my county. The damage to the youth will be a hard road to correct the false information they received and continued push to educate them on the truth about marijuana.       |                        |  |  |
| Silver Lake Police Department                | None  | None   | no        |   | no  |   | no                 |   | N/A  | Lots of Questions: WHY? From the teenagers and younger kids in Silver Lake. Why is it against the law in Ks. Our DARE officer is questioned all the time about this.   |   |                        |  |  |
| Smith Center Police Department               | 0   |  | 0         | no  |   | no  | no                 |   |  | The effects of the Colorado marijuana "legalization" have not been felt that much in our jurisdictions as some jurisdiction's out west closer to the Colorado since January 1st 2014. But I feel we will start having to deal with a lot more in the future.   |   |                        |  |  |

| Office/Agency                                   | Seizures                                  | Arrests for impairment | Juveniles | Please elaborate | Edibles  | Please elaborate | Other products  | Please elaborate  | How do you know it's from Colorado?   | Overall effect  | Any other information   |   |  |  |
|---|---|------------------------|-----------|------------------|--|------------------|---|---|---|---|---|---|--|--|
| Smith County Sheriff's Office                   | approx. 20 grams                          |                        |           |                  |  |                  |   |   |   |   |   |   |  |  |
| South Haven Police Department                   | 0   | 0                      | no        |                  | no   |                  | no  |   |   | none  |   |   |  |  |
| South Hutchinson Police Department              | 6   |                        | 6         | no               |  |                  | no  |   | traffic stop seizure  | n/a   | n/a   |   |  |  |
| Spring Hill Police Department                   | 2   |                        | 0         | no               |  |                  | no  |   | The marijuana seized was inside containers referencing Colorado. The first case contained marijuana inside a glass jar labeled "Rocky Mountain High Colorado" with a Colorado logo affixed to this label as well. The second case contained marijuana located inside a bottle labeled "Colorado Alternative Medicine."  | The effect seems to be considerably low within the city limits of Spring Hill KS given that the last 2 years with 171 narcotic related reports/arrests, only 2 case have the mention of Colorado based marijuana. |   |   |  |  |
| St. Francis Police Department                   | 0   |                        | 0         | no               |  |                  | no  |   |   |   |   |   |  |  |
| St. John Police Department                      | 1   |                        | 1         | no               |  |                  | no  |   | Marijuana seized was in containers labeled as coming from a dispensary in Colorado.   | I believe it Colorado legalization has made it far easier for individuals to obtain Marijuana in my jurisdiction.   | I believe there is far more 'Colorado Marijuana' in my jurisdiction than just the one seizure.  |   |  |  |
| St. Marys Police Department                     | 0   |                        | 0         | no               |  |                  | no  |   | N/A   | We have had no known incidents involving it.  |   |   |  |  |
| Stafford County Sheriff's Office                | 0   |                        | 0         | yes              | Marijuana was found in a vehicle belonging to a high school student. The student admitted going to Colorado to obtain the marijuana.   |                  | no  |   | The suspect admitted to going to Colorado to obtain the marijuana.  | Although we have not seen much effect in our county, I do believe we will. Too easy to drive a few hours and purchase it.   |   |   |  |  |
| Sterling Police Department                      | 0   |                        | 0         | no               |  |                  | no  |   |   | none  |   |   |  |  |
| Stockton Police Department                      | 10  |                        | 13        | no               |  |                  |   | yes   | in most of those cases the suspects told us they or their supplier has been to Colorado to purchase the marijuana.  | it has made it easier to obtain higher quality marijuana in our area.   | I am not certain there is more marijuana use and activity since the change in Colorado law. The origination point has shifted. The quality appears to be better but the prices has remained the same from what we are being told.   |   |  |  |
| Sumner County Sheriff's Office                  | Approx. 2                                 | 2 or less              |           | no               |  |                  | n   |   | individual lived in Colorado passing through with prescription type bottles and labeling.   | minimal   |   |   |  |  |
| Tonganoxie PD                                   | 3   |                        | 0         | no               |  |                  | no  |   | Some of the marijuana was said (by the suspects) to be from Colorado. Other incidents had the dispensary labels affixed to the container.   | minimal that we are able to prove   |   |   |  |  |
| Topeka Police Department                        | Seven confirmed, but no true way to track |                        | 10        | yes              | We believe most of our high grade marijuana is coming from the State of Colorado. We have found packaging to indicate that this is the case, but have no tracking measures in place to indicate and record where the marijuana is from. It is also hard to determine the extent when the predominate number of arrests the city makes will be personal use that has been repackaged. | yes              | This has not been a huge problem, but we have served a couple of warrants where gummies and similar candies have been present that tested positive for THC. | yes   | Also, not very common, but have come across a couple of instances while serving search warrants.  | Information from both interviews and packaging that was present.  | Higher grade marijuana has become more prevalent. This combined with minor penalties has made selling this marijuana a profitable option to many dealers.   |   |  |  |
| Topeka Public Schools                           | 0   |                        | 0         | no               |  |                  | no  |   |   |   |   |   |  |  |
| Trego County Sheriff's Office                   | 4   |                        | 2         | no               |  |                  | yes   | Found with people traveling through was chocolate bars, hard candy, mints, brownies, and energy drinks containing THC | receipts and statements from people involved  | It has increased in jail population, the Highway Patrol has brought us numerous people that they have arrested for some sort of marijuana possession  |   |   |  |  |
| Udall Police Department                         | 1   |                        | 1         | yes              | Wax was being converted into hard candy and sold to youths in the area.  | yes              | Hard candy.   | yes   | Our department seized approx. 5 ounces of wax.  | Was told in interview the marijuana came from Colorado. Some jars labeled with brand names was seized as well.  | becoming a big problem. We have heard of two other locals that are trafficking marijuana from Colorado to Kansas for re-sale.   | We need the opportunity to seize assets of the traffickers, also need to be able to apply for grant monies to beef up traffic enforcement in the local jurisdictions. |  |  |
| Ulysses Police Department                       | 5   |                        | 0         | no               |  |                  | no  |   |   |   |   |   |  |  |
| Ulysses Police Department                       | 5   |                        | 0         | no               |  |                  | no  |   | On two case the suspects admitted through the interviews the marijuana came from Colorado. One case the officer located evidence and paperwork showing the subject had recently been in the Denver, Co area. Two cases the officer believed through his experience the marijuana he seized was a 'hydro' strain that is more potent and has a stronger smell. | With this jurisdiction been so close to the Colorado State line there has and will continue to be an increase in the flow of marijuana from Colorado.   | The case number reported for this survey are low. This does not reflect numerous other incidents of traffic stops conducted of subjects believed to be coming from the Colorado area. The odor of marijuana was present in the vehicle. No marijuana was located though after searches conducted on the vehicles. |   |  |  |
| Union Pacific Railroad-Kansas City Division     | 0   |                        | 0         | no               |  |                  | no  |   | N/A   | No Known Effect at this time  |   |   |  |  |
| University of Kansas Medical Center Police Dept | 1   |                        | 1         | no               |  |                  | no  |   | Suspect stated he/she purchased the marijuana in Colorado.  |   |   |   |  |  |

| USD375 Campus PD                          | 0  | 0                      | no        |   | no      |   | no             |  | NA  | It has made marijuana look not as bad or illegal to the juveniles  | NA   |  |  |  |
| Valley Center Police Department           | estimate 30 cases total (marijuana, wax and shattered from Colorado)   |                        |           |   |         |   |                |  |   | It's obvious our cases continue to increase yearly, but we have had some success interviewing individuals that said the drugs they were caught with came directly from Colorado. Marijuana is not the only drug that we have located in Valley Center. We have also located "Wax" (derivative of Hashish) and a small amount of "Shattered" (glass-like appearance-THC based) that also came from Colorado.  |  |  |  |  |
| Valley Falls PD                           | 0  | 0                      | no        |   | no      |   | no             |  | na  | na   | na   |  |  |  |
| Victoria Police Department                | 1  | 1                      | yes       | For the most part, Victoria doesn't see a lot of drug activity. We recently arrested a juvenile for having marijuana and a hybrid wax that is made of marijuana. Both of these drugs were from Colorado. With the legalization just on the West side of our border, I feel this will become a bigger problem over time. | yes     | A while back, I learned of chocolate bars that contained marijuana in my jurisdiction. This is a big concern that I have because of juveniles not knowing and understanding the risks. Making a candy out of this drug is very dangerous to the point it can be consumed to an amount that is deadly. | yes            | The juvenile that I just recently arrested for possession of marijuana, also had a wax hybrid marijuana drug in his pocket.  | The container that contained the marijuana said it was medical. The Wax hybrid container was very legit and appeared to have come from a legal store that sold marijuana.   | We haven't noticed a big effect just yet. Victoria has never really experienced a big drug problem. I feel the legalization in Colorado will eventually cause problems for us in the future. It's basic common sense. If you allow for easier access, your problem will expand.  |  |  |  |  |
| Wabaunsee County Sheriff's Office         | Six. The number of cases listed reflects the minimum as our data entry and/or search capabilities may overlook some cases .  | Unknown                | no        |   | yes     |   | yes            | The people arrested with edibles and other by-products are transient or otherwise not connected with the local jurisdiction and are merely passing through. Most commonly these arrests are made by the KHP. | Packaging; direction of travel; statement/admission;  | there is an attributed increase in cost of housing, transportation, and prosecution. It is my finding that the biggest burden is to the jail budget and the cost of transporting. Transportation costs are incurred when a person is released by KHP in lieu of a warrant at a later date and the Sheriff's Office is obligated to pick these people up where they are arrested or if they bond out and don't return for court and are then later picked up elsewhere on a Wabaunsee County Warrant. Regardless Wabaunsee County is obligated to foot the bill for transportation and housing costs.   | Due to the rural landscape of Wabaunsee County and the small population the Colorado marijuana situation is limited to interstate trafficking Keep in mind that many of the arrests are not included in this summary as the KHP conducts interdiction patrols which generate most of the arrests for illegal drugs on Interstate 70. |  |  |  |
| Wakeeney Police Department                | 52 1 arrest for DUI involving Colorado marijuana. Approximately 90% of the motorists arrested at the 24/7 truck stop and the Travel Shoppe have admitted to smoking/consuming marijuana while leaving Colorado. Since no impaired driving was observed prior to their contact by officers, no DUI investigations were conducted. |                        | no        |   | yes     | Edibles were present in 12% of drug seizures made during 2015.  | yes            | Marijuana concentrates were present in 10% of drug seizures made during 2015.  |   | The legalization of marijuana in Colorado has caused a marked increase in drug arrests in Wakeeney - in both residential investigations as well as 'non-local' arrests mainly consisting of motorists interdicted at I-70, exit 127, which serves the 24/7 Truck Stop and the Travel Shoppe gas station. Wakeeney is only 4 hours from Denver. It is becoming more and more frequent for people to take road trips to Colorado and then return with personal use marijuana and other drugs. This trend will only continue in ever-increasing numbers; bringing with it the habitual use and misguided acceptance of drugged driving, recreational use and abuse of edibles that are laced with far more THC than consumers realize, and the inevitable medical issues of overdose and death. | Detailed report submitted. Increase in Colorado marijuana seizures since 2014, decrease in non-Colorado marijuana seized. People just don't want to grow their own when they can drive to Colorado and purchase much stronger marijuana, edibles and concentrates.   |  |  |  |
| Wakefield Police Department               | 0  | 0                      | no        |   | no      |   | no             |  |   | Very little  |  |  |  |  |
| Wallace County Sheriff's Office           | about 50   | unable to determine    | yes       |   | yes     | candybars, all kinds of things  | yes            |  | Colorado packaging, sometimes they tell us, higher grade  |  | They are trafficking other drugs along with marijuana  |  |  |  |
| Washburn Rural USD 437 School Police      | zero   | zero                   | no        |   | no      |   | No             |  |   |  |  |  |  |  |

| Office/Agency                              | Seizures   | Arrests for impairment  | Juveniles | Please elaborate   | Edibles | Please elaborate  | Other products | Please elaborate   | How do you know it's from Colorado?   | Overall effect   | Any other information   |  |  |  |  |
|--|--|---|-----------|--|---------|---|----------------|--|---|--|---|--|--|--|--|
| Washburn University Police                 | 0  | 0   | no        |  | no      |   | no             |  |   | The number of arrests and referrals for marijuana related offenses have increased but we cannot verify this as a result of legalization of marijuana in Colorado.  | Marijuana arrests in the past three years, although not verified as originating in Colorado, have increased: 2012- 6 arrests and referrals, 2013- 8 arrests and referrals, 2014-12 arrests and referrals and 2015-22 arrests and referrals. Marijuana arrests on campus almost doubled from 2014 to 2015.   |  |  |  |  |
| Washington County Sheriff's Office         | 2  | 3   | no        |  | yes     | We have made traffic stops which resulted in arrests pertaining to the possession and/or trafficking of "Colorado Marijuana". The content of the items found is traditional marijuana, but also of edibles such as food and/or candy. | yes            | Oils found on traffic stops.   | Labels on the marijuana packaging indicated sold from Colorado dispensaries.  | Colorado's legalization of marijuana has been detrimental to Kansas and I'm sure the other surrounding states to Colorado. I believe their legalization has nothing but negative effects for Kansas.   |   |  |  |  |  |
| Waverly Police Department                  | 2  | 3   | no        |  | no      |   | yes            | Waverly is a part-time police department so usually any problems that take place here are taken care of by the Coffey County Sheriffs Office. However there has been some situations typically involving workers that come to the area for projects. | Labeled from businesses out of Colorado   | Waverly is a small town off of any major highway therefore in our area it is yet to me a major problem.  | I do know that there is more signs of Colorado marijuana in the jurisdiction of Coffey County on major highways however it is yet to begin to travel into the town of Waverly.  |  |  |  |  |
| Weir Police Department                     | none   | none  | no        |  | no      |   | no             |  | have had zero incidents with marijuana in our city.   | has had no effect in our city, our problem is ice and meth.  |   |  |  |  |  |
| Wellington Police Department               | 2  | 2   | no        |  | yes     | 57yoa WM & 20yoa WM arrested for poss MJ & candy "THC" suckers.   | no             |  | Markings on packages labeled Crested Butte, Colorado  | Minor thus far   |   |  |  |  |  |
| Wellsville Police Department               | 0  | 0   | no        |  | no      |   | no             |  |   | I would say that legalization in any state that borders Kansas would have an effect. Although we are so close to the eastern border it would be hard to know for sure.   | Obviously the passing of such laws in bordering states tends to drive more call for legalization. I think this is harmful as marijuana is usually found with harder drugs and vice versa.   |  |  |  |  |
| Wichita County Sheriff's Office            | 0  | 0   | no        |  | no      |   | no             |  |   |  |   |  |  |  |  |
| Wichita Police Department                  | 21 can be confirmed through Special Investigation Bureau but more have occurred that are difficult to track down. My Bureau has larger seizures/purchases. | 19 on distribution level of possession. More out there but difficult to pull statistic due to not tracking. | yes       | Many complaints received on juveniles/adults selling hydro-marijuana. We deal with dealer levels and can confirmed approximately (more not able to confirm) 55 pounds and 20 ounces of Colorado Marijuana. Also confirm MJ fused cookies and gummies picked off. Total cash going back to Colorado we have picked off is \$294,770.00, estimates of investigation show over in one case show over \$680,000.00 we missed and was already sent. All information is low due to not tracking all incidents. | yes     | cookies, gummies  | yes            | have siezed MJ oil, or butter, on search warrants with Colorado Marijuana. Knew plant substance was from Colorado, believe MJ oil was from there as well.  | Suspected stated from Colorado. During investigations, have video and documents showing product leaving Colorado and money returning to Colorado. | Have seen more in the high grade marijuana since the legalization then marijuana from Mexico. Also seeing more oils and edibles then before.   | To give an accurate overall picture of what is being seen, we would have to pull each Marijuana case over the last 2 years and review each interview/report. Information provided did NOT include Field officers and their cases, just the Undercover Detectives and what they are seeing.  |  |  |  |  |
| Wichita State University Police Department | 0  | 0   | no        |  | no      |   | no             |  |   | Minimal at this point in time  |   |  |  |  |  |
| Wilson County Sheriff's Office             | 1  | 3 arrests in the above mentioned seizure  | no        |  | no      |   | unknown        | There have been two individuals that were arrested with a form of marijuana oil. It is unknown if that marijuana originated in Colorado.   | The individuals indicated they were returning from California and passed through Colorado.  | As you know, Wilson County is in the South East portion of the state approximately an hour drive from Oklahoma and Missouri State lines. Our marijuana problem is with the Mexican Cartels that take up residence in remote areas of our county during the growing season. | In our region of the state the Colorado Marijuana does not seem to be an issue at this time. As stated above, our regional problem is with the Mexican Cartels. The KBI has made a valiant effort to assist Wilson County with this problem. However, their resources are extremely limited due to not enough Agents being assigned to this specific region. Wilson County (as well as Montgomery, Greenwood and Woodson Counties) are serviced by two KBI Agents; one Field Agent and one Special Operations Division Agent. Hopefully, the Office of the Attorney General will make every attempt to rectify this situation in the near future. |  |  |  |  |

| Office/Agency                     | Seizures | Arrests for impairment | Juveniles | Please elaborate | Edibles | Please elaborate  | Other products | Please elaborate | How do you know it's from Colorado?  | Overall effect  | Any other information   |  |  |  |
|-----------------------------------|----------|------------------------|-----------|------------------|---------|---|----------------|------------------|--|---|---|--|--|--|
| Wilson Police Department          | 0        | 0                      | no        |                  | yes     | Cookies containing marijuana at school rumored to have been supplied by ex-student now living in Colorado | no             |                  |  | none  | In this county prosecution would be nice  |  |  |  |
| Woodson County Sheriff's Office   | 1        | 0                      | no        |                  | no      |   | no             |                  | We did a controlled buy from a local that had just moved back from Colorado and he admitted it had come from Colorado. | There has been a lot of talk about it but so far we have not had a lot that we could say came from there. | We live in a poor county and not a lot of our people can travel to Colorado to get it but there is rumor in our area that it is being brought back through here. The problem we have is we can not say for sure if it is coming from Colorado or not but have heard there is. We have a lot coming from the Wichita area and have been told that some is coming from Colorado from there. |  |  |  |
| Wyandotte County Sheriff's Office | 0        | 0                      | no        |                  | no      |   | no             |                  |  | none that we have worked  | it does not appear it has traveled very much this far east  |  |  |  |
| Yates Center Police Department    | 0        | 0                      | no        |                  | no      |   | No             |                  |  | No effect   |   |  |  |  |
