Summary of Proposed Regulation, Including Its Purpose.

K.A.R. 16-17-1 -- Training course approval for providers. This is a new regulation which implements the requirement in K.S.A. 2017 Supp. 8-2,157 (2017 House Sub. for SB 40, §4) that the Attorney General promulgate rules and regulations to establish requirements for training course approval for providers of a human trafficking identification and prevention training course. On or after July 1, 2018, successful completion of the training course approved by the Attorney General is required before an

applicant for issuance or renewal of a commercial driver's license (CDL) may obtain such license.

According to the statute, the regulation must be in effect by January 1, 2018. However, the OAG is seeking to have the regulations implemented on July 1, 2018 to coincide with the effective date of the statutory requirement that an applicant for issuance or renewal of a CDL complete the approved training.

Economic Impact. The Attorney General does not anticipate ongoing economic impact upon the Office of Attorney General (OAG) other than the initial costs of implementation and then the continuing costs of monitoring the program compliance and approval. The OAG anticipates costs associated with administering the human trafficking identification and prevention training course to be borne solely by the approved providers. The OAG anticipates an economic impact on the Kansas Department of Revenue, Division of Motor Vehicles (KDOR DMV) but not other governmental agencies. The OAG anticipates an economic impact on private business or individuals who are affected by the requirement that a certificate of successful completion of a human trafficking identification and prevention training must be obtained before issuance or renewal of a CDL may obtain such license.
