\*\* Statistics are Reliable but Not Guaranteed\*\*

**Question # 2 How many arrests have been made in your jurisdiction since January 1, 2014, involving a person suspected of being impaired as a result of using Colorado Marijuana?**

One (1)

**Question # 3 Has Colorado marijuana been found in the possession of juveniles in your jurisdiction since January, 2014? If yes elaborate.**

36-46 times. No elaboration.

**Question # 4 Are you aware of any Colorado marijuana found in your jurisdiction since January 1, 2014, in the form of edibles, food additives, or other ingestible products? If yes elaborate.**

In addition to the above chart, an example of this type of seizure occurred in January of 2015 when a KHP Trooper made the following single incident seizure involving 17 pounds of THC laced edibles:

- 22 1 gram containers of "Shatter Hash".
- 7 bottles of "Star Barz" THC chocolates.
- 6 containers of "Loves Oven" THC candies.
- 8 packages of "Full Melt" THC chocolate bars.

- 1 package of THC hard candy.
- 11 "Flying Aces" THC chocolate bars.
- 7 containers of "Puckers" hard THC candies.
- 4 bottles of "Edipure" mixed THC candy drops.
- 4 bottles of "Edipure" THC jellybeans.
- 6 bottles of "Insta High" THC powder mix.
- 5 bottles of Marijuana Bud.
- 36 THC chocolate bars.
- 2 bottles of Peanut Brittle THC bites.
- 2 boxes of THC "Awakening" mints.
- 2 containers of THC lemon drops.
- 4 Vapor pens.

**Question # 5 Are you aware of any other Colorado marijuana by-products (such as waxes or oils) found in your jurisdiction since January 1, 2014? If yes elaborate.**

In 2014 the KHP had approximately 4 separate seizures involving THC wax. Approximately 4 pounds of THC wax was seized.

In 2015 the KHP had approximately 4 separate seizures involving THC wax. Approximately 2 pounds of THC wax was seized. There was one 2 pound THC infused syrup seizure.

**Question # 6 If you have provided any information in response to the question above about incidents in your jurisdiction, please describe why you believe that the marijuana involved was, in fact, Colorado marijuana and did not come from another source.**

We do not have the resources to definitively trace back marijuana seizures to a specific source state with 100% certainty. We do suspect certain loads of marijuana coming from specific locations based on clues such as: pocket trash, receipts, associates, GPS navigation tool information, and through interviews with the suspect(s), etc.

**Question # 7 Overall, how would you characterize the effect of Colorado marijuana "legalization" in your jurisdiction since January 1, 2014?**

Our statistics show that since 2013 over half of all marijuana seized by the KHP is suspected of originating in Colorado. Since recreational use legalization in 2014, KHP experienced a significant increase in seizures of Colorado marijuana and edibles. In 2015 nearly 70% of all KHP marijuana seizures were suspected to be of Colorado origin and approximately 94% of all edible seizures were Colorado based.

**Question # 8 Please provide any other information you believe would assist the Office of the Attorney General in ascertaining the true condition of the Colorado marijuana situation in your jurisdiction and in Kansas.**

We believe our statistics are indicative of a significant rise in Colorado marijuana flowing into and through the state of Kansas.
